Volume 22 - 1980

SUBJECTS

EDIZIONI MINERVA MEDICA

1. - ALPHABETICAL INDEX OF SUBJECTS

A

A-cell

A sequential test to assay A-B cellular function in controls and diabetic patients, 131.

Adenocanthoma

Mixed adenoepidermoid carcinoma of the endometrium discovered by cutology, 173.

Aggregation

The binding of platelet-activating factor (PAF), to polymorphonuclear neutrophils (PMN) as a trigger for the immune-induced PMN aggregation, 1.

Amyloidosis

Current pathogenetic, clinical and nosographic notions, 107.

Recent findings on amyloid substance, 106.

Anaesthesia-resuscitation

Anaesthesia problems presented by subject with multiple injuries, 40.

Angiology

Diagnostic evaluation of functional impairment of peripheral circulation in diabetic and sclerotic obliterating arteriopathy, 105.

Medical and surgical therapy of post-phlebitic syndrome 240.

Notes on the use of phleboscintigraphy with MAA-Tc^{99m} in the diagnosis of thrombosis of the lower extremities, 40.

Antibiotic therapy

The effect of antibiotics on the spontaneous and direct migration of human leukocytes: preliminary results, 105.

Antitrombin III in liver pathology. Comparison between immunological determination and that with chromogenic substrate, 243.

Aortic valvulopathy

Echophonomechanographic assessment of the effect of amyl nitrite on systole times in normal subjects and those with aortic valvulopathy, 106.

Arterial hypertension

High prolactinaemic response to sulpiride in patients with midl essential hypertension: a sign of reduced hypothalamic dopaminergic activity, 177.

Arteriopathy

Diagnostic evaluation of functional impairment of peripheral circulation in diabetic and sclerotic obliterating arteriopathy, 105.

Arteriovenous fistula

Echocardiographic detection of cardiac effects of arteriovenous dialysis fistula (AVF), 43.

Audiology

An aetiopathogenetic study of sudden idiopathic deafness, 105.

Replacement of the ossicular chain with a new synthetic prosthesis made of Plastipore and Proplast, 240.

Autoimmunity

Vitiligo and autoimmunity, 107.

B

B-cell

A sequential test to assay A-B cellular function in controls and diabetic patients, 131.

Boerhaave's syndrome

Boerhaave's syndrome, 21

Bone diseases

Metabolic changes induced by salmon calcitonine in post-menopausal osteoporosis, 177.

Bromocriptine

Partial or complete regression of hyperprolactinemic amenorrhea-galactorrhea syndrome after bromocriptine-induced pregnancy, 125.

Bronchopleural fistula

Notes on the use of thoracoscopy in the study of postpneumonectomy bronchopleural fistulae, 137.

C

Cardiac microcatheterism

Usefulness of right cardiac microcatheterism in the haemodynamic assessment of some cardiopathies, 41

Cardiac murmurs

Echocardiographic study including Doppler effect, on floating of the intraventricular septum as

a determinant factor in the genesis of innocent murmurs, 241.

Cardiac rupture

Remarks on the early diagnosis of cardiac rupture during acute myocardial infarction, 40.

Cardiology

Cardiac dynamics in wearers of pacemakers, 178.
Cineangiographic and haemodynamic evaluation of left bundle-branch block, 240.
Clinical significance of a prolonged sinus node recovery time as the only pathological finding: follow-up, 177.
Echophonomechanographic assessment of the effect of amyl nitrite on systole times in normal subjects and those with aortic valvulopathy, 106.
Echocardiographic diagnosis of hypertrophic subaortic stenosis, 178.
Echocardiographic study including Doppler effect on floating of the intraventricular septum as a determinant factor in the genesis of innocent murmurs, 241.
Functional significance of coronary collateral circulation in patients with coronary atherosclerosis disease, 40.
Influence of the glycoside bioavailability on the relationship between serum digitalis concentration and patient characteristics: comparison between digoxin and methyl-digoxin, 241.
Intracavitary electrical stimulation in A-V blocks complicating the acute stage of myocardial infarct. Utility and indications, 178.
Left ventricular function in systemic arterial hypertension: echocardiographic findings, 242.
Lipoprotein lipases of myocardium and infarction, 105.
Modern techniques for evaluation the sinus node by endocardiac electrophysiologic study, 178.
Radiological evaluation of pulmonary arterial hypertension in congenital and acquired cardiopathy, 41.
Remarks on the early diagnosis of cardiac rupture during acute myocardial infarction, 40.
The dipyridamol test in exercise-induce angina, 179.
Usefulness of right cardiac microcatheterism in the haemodynamic assessment of some cardiopathies, 41
Vectorcardiograms in subjects with artificial pacemakers, 241.
Ventricular fibrillation in the late hospital phase of acute myocardial infarction. Predicability of the event and long-term survival of resuscitated patients, 106.

Cardiotocography

Ante-partum cardiotocography and urinary oestriol in the evaluation of foetal status, 44.

Cell-mediated immunity

Contribution to the study of cell-mediated immunity in basal and squamous cell carcinoma, 246.

Choriocarcinoma

A late complication of pregnancy, 31.

Chronic hepatitis

HBsAg in hepatocytes cytoplasm with orcein staining in chronic hepatitis and HBsAg healthy carriers. Clinical and prognostic value, 111.

Chronic uremia

Serum folate in chronic uremic patients undergoing dialysis, 244.

Cineangiography

Cineangiography and haemodynamic evaluation of left bundle-branch block, 240.

Clinical research

Arteritis, 77.
Clinical judgement as the rational foundation of the evaluation of therapeutic response, 54.
Mixed connective tissue disease, 73.
Monitoring and drug surveillance, 58.
Neuroactive drugs in endocrine diseases. Notes on their physiopathological and therapeutical aspects, 61.
Personal experience, experimental design and epidemiological studies in clinical evaluation, 54.
The non-specific components of the therapeutic response: the placebo effect, 56.
The observer as cause of variability and error, 55.
The patient record form, an instrument for the utilization of data, 57.
The phases of clinical drug research, 57.

Colonsphincterometrography

Colonsphincterometrography (CSMG). An original method for the simultaneous study of left colon and anal sphincter motility, 42.

Coronary atherosclerosis

Functional significance of coronary collateral circulation in patients with coronary atherosclerosis disease, 40.

Cryo-polychemo-radiotherapy

Cryo-polychemo-radiotherapy in the years experience, 245.

Cymethidine

Blood gastrin, insulin and glucagon in normal and diabetic patients after a protein meal associated with cymethidine, 110.

Cystic pneumatosis of colon

The diagnostic, prognostic and therapeutic problems associated with cystic pneumatosis of the colon, 42.

D

Degenerative diseases

Amyloidosis. Current pathogenetic clinical and nosographic notions, 107.
Amyloidosis. Recent findings on amyloid substance, 106.

Dermatology

A case of multiple Abrikosoff granular cell tumours. Ultrastructural study and survey of the literature, 107.

Acquired digital fibrokeratoma, 242.
A new therapeutic aid for rhinophyma: fast electrons, 41.
Infrared phlebography in stasis dermatitis of the lower limbs, 242.
Rud's syndrome (ichthyosis, oligophrenia, epilepsy) with character dissociation in five brothers, 108.
Vitiligo and autoimmunity, 107.

Diabetic nephropathy
Diabetic nephropathy: a review of the present position and a practical account of its aetiopathogenesis and clinical and therapeutic aspects, 244.

Dialysis
Echocardiographic detection of cardiac effects of arteriovenous dialysis fistula (AVF), 43.

Diamond-Blackfan
Diamond-Blackfan syndrome with microphthalmos, 25.

Digestive endoscopy
Endoscopic assessment of the relationship between gastric erosion and duodenal ulcer, 108.

Digital fibrokeratoma
Acquired digital fibrokeratoma, 242.

Digitalis drugs
Influence of the glycoside bioavailability on the relationship between serum digitalis concentration and patient characteristics: comparison between digoxin and methyl-digoxin, 241.

Domperidone
Effect of domperidone on prolactin secretion in healthy subjects, 13.

Drug abuse
Psychoneurosis and drug abuse, 113.

Drug addiction
Therapeutic problem of drug addiction in Italy, 47.

Duodenal ulcer
Endoscopic assessment of the relationship between gastric erosion and duodenal ulcer, 108.

E

Ear
An unusual localization of fibroma on the lobe of the ear, 37.

Echocardiography
Echocardiographic detection of cardiac effects of arteriovenous dialysis fistula (AVF), 43.
Echocardiographic study including Doppler effect, on floating of the intraventricular septum as a determinant factor in the genesis of innocent murmurs, 241.
Left ventricular function in systemic arterial hypertension: echocardiographic findings, 242.

Echography
Echography in renal tumours, 108.

Emergency surgery
Penetrating abdominal wounds, 41
Problems in emergency surgery. Massive pulmonary embolism: clinical and diagnostic aspects, 179.

Empyema of the residual space
Notes on the use of thoracoscopy in the study of postpneumonectomy bronchopleural fistulae, 137.

Endocrinology
Scintiscanning and echography in diseases of the thyroid, 243.

Endometrial cytology
Endometrial cytology in the prevention and early diagnosis of carcinoma of the body of the uterus, 42.

Epidemiology
An epidemiological study on arterial blood pressure in 504 junior high school students of a Rome district, 235.
Blood pressure in high school population (Standards for blood pressure and the relation of age, sex, weight and body surface to blood pressure), 205.
Blood pressure levels related to age and puberal development at adolescence, 223.
First results of an epidemiologically survey on juvenile hypertension, 211.
High systolic blood pressure in newborn infants and its relations with age, sex, weight, glycemia, hematocrit and method of delivery, 229.
Hypertension in high schools of Bologna, 215.
Hypertension in school children in Naples. (Detection and prevalence), 231.
Juvenile hypertension epidemiology, 219.
Precursors of atherosclerosis in children (WHO protocol): study of blood pressure in school children. (The Pordenone study), 201.
Sequential screening for hypertension in adolescence. (Three years follow-up), 195.
Survey on juvenile hypertension in Italy, 193.

Esophageal achalasia
Manometric findings in esophageal achalasia, 110.

Essential hypertension
Clinical evaluation of labetalol in essential hypertension. Effects of chronic treatment in rest and stress conditions, 247.

Experimental cholostasis
Experimental cholostasis, behaviour of organism functions and reactivity to various drugs, 111.

Experimental pharmacology
Pharmacokinesic studies on 1-(4'-oxyphenyl)-2-(3'-phenyl-thiopropyl-amino) propane-1-olo hydrochloride (Isotiod), in rats, 109.
The protective effect of oxyphedrine during myocardial hypertrophy induced in the rat by stenosis of the subdiaphragmatic aorta, 109.

Experimental surgery
Autotransplant of pancreatic tissue in the spleen of pancreatectomized dogs, 109.
Experimental study of the tissue adhesive in the colonic surgery, 109.
Testicular atrophy and gonadotropic activity in rats with porto-caval anastomosis, 243.

F

Face muscles
A further contribution to the study of morpho-neurophysiopathological relations between the muscles of the face, in particular of the mouth, and other apparatus and systems, 157.

Factor X deficiency
Hemorrhagic diathesis caused by factor X deficiency in a child with thymic cyst, 167.

Father-daughter incest
Negative psychological effects on the incestuous daughter of sexual relations with her father, 27.

Fibroma
An unusual localization of fibroma on the lobe of the ear, 37.

G

Gastric erosion
Endoscopic assessment of the relationship between gastric erosion and duodenal ulcer, 108.

Gastroenteric electromanometry
Antispasmodic activity of rociverine. Manometric findings and controlled clinical trial, 7.

Gastroenterological surgery
Fistulas complicating diverticular disease of the colon, 179.
Intestinal transit time in biliopancreatic by-pass, 179.
Prophylactic action of a single preoperative dose of antibiotics in gastrointestinal surgery, 109.

Gastroenterology
Blood gastrin, insulin and glucagon in normal and diabetic patients after a protein meal associated with cymethidine, 110.
Colonsphincterometrography (CSMG). An original method of the simultaneous study of left colon and anal sphincter motility, 42.
Histamine as the main pathogenetic factor in gastroduodenal ulcer. Research report, 180.
Manometric findings in esophageal achalasia, 110.
Personal experience in pancreatic cyst, 180.
Prostaglandins and ulcers, 180.
The diagnostic, prognostic and therapeutic problems associated with cystic pneumatosis of the colon, 42.

Gynaecology
Cytology of jet-washing in the diagnosis of endometrial neoplasias, 181.
Endometrial cytology in the prevention and early diagnosis of carcinoma of the body of the uterus, 42.
Evaluation of serum lactic dehydrogenase in patients suffering from malignant gynaecological cancer, 180.
Immunological deficiencies associated with gynaecological malignant tumours, 43.

Glucagon
A sequential test to assay A-B cellular function in controls and diabetic patients, 131.

H

Haematology
Adenopathies in chronic myeloid leukemia (CML). Observations on 161 patients, 181.
Non-esterified fatty acid patterns after surgery, 110.
The medicosocial and medicolegal aspects of thalassemia in Eastern Sicily, 181.
Use of betamethasone in the polychemotherapy of lymphoproliferative diseases, 181.

HBsAg
HBsAg in hepatocytes cytoplasm with orcein staining in chronic hepatitis and HBsAg healthy carriers. Clinical and prognostic value, 111.

Haemorrhagic diathesis
Hemorrhagic diathesis cause by factor X deficiency in a child with thymic cyst, 167.

Hepatology
Role and limitations of litholytic treatment of cholesterinic cholecystolithiasis. Results of 86 cases treated with chenic acid, 182.

Hyperprolactinemia
Partial or complete regression of hyperprolactinemic amenorrhea-galactorrhea syndrome after bromocriptine-induced pregnancy, 125.

I

Immunology
Antithrombin III in liver pathology. Comparison between immunological determination and that with chromogenic substrate, 243.
Immunocomplex monitoring in echinococcus infestations, 243.
Immunological deficiencies associated with gynaecological malignant tumours, 43.
Platelet mediators of vascular permeability and phlogosis, 182.
SIgA dosage in nasal secretions as a possible susceptibility index to upper respiratory tract viral infections, 110.
T-active rosette forming cells (T-ARCF) test in RDT patients, 42.
The immune response in serum-negative polyarthritis, 111.

Infectious diseases
Further epidemiological and clinical investigation upon viral neuraxitis, 182.

Infestations
Immunocomplex monitoring in echinococcus infestations, 243.

Insulin-dependent diabetes
A sequential test to assay A-B cellular function in controls and diabetic patients, 131.

Intensive therapy
Intensive postoperative treatment in obstetrics and gynaecology: proposal of a score system for medico-surgical assessment of the abdominal patient, 112.

Intraventricular septum
Echocardiographic study including Doppler effect, on floating of the intraventricular septum as a determinant factor in the genesis of innocent murmurs, 241.

Ischaemia of the extremities
Indications for and results of thrombo-embolectomy in acute ischaemia of the extremities, 114.

J

Juvenile hypertension
An epidemiological study on arterial blood pressure in 504 junior high school students of a Rome district, 235.
Blood pressure in high school population. (Standards for blood pressure and the relation of age, sex, weight and body surface to blood pressure), 205.
Blood pressure levels related to age and puberal development at adolescence, 223.
First results of an epidemiological survey on juvenile hypertension, 211.
High systolic blood pressure in newborn infants and its relation with age, sex, weight, glycemia, hematocrit and method of delivery, 229.
Hypertension in high schools of Bologna, 215.
Hypertension in school children in Naples. (Detection and prevalence), 231.
Juvenile hypertension epidemiology, 219.
Precursors of atherosclerosis in children (WHO protocol): study of blood pressure in school children. (The Pordenone study), 201.
Sequential screening for hypertension in adolescence. (Three years follow-up), 195.
Survey on juvenile hypertension in Italy, 193.

K

Kasabach-Merrit syndrome
Current pathogenetic and therapeutic aspects of Kasabach-Merrit syndrome, 246.
Study of platelet sequestration with ^{99m}Tc-labelled platelets in a patient with Kasabach-Merrit syndrome, 45.

L

Left bundle-branch block
Cineangiographic and haemodynamic evaluation of left bundle-branch block, 240.

Leucine-amino-peptidase
Notes on increased serum leucine-amino-peptidase (LAP) in patients with primary malignant bronchiogenic neoplasia, 112.

Lipoprotein lipases
Lipoprotein lipases of myocardium and infarction, 105.

Liver diseases
Antithrombin III in liver pathology. Comparison between immunological determination and that with chromogenic substrate, 243.
Experimental cholostasis, behaviour of organism functions and reactivity to various drugs, 111.
HBsAg in hepatocytes cytoplasm with orcein staining in chronic hepatitis and HBsAg healthy carriers. Clinical and prognostic value, 111.
Non-A, non-B hepatitis. Seroimmunological epidemiological and clinical findings, 111.
The comparative value of echotomography and laparobiopsy in the diagnosis of diffuse liver diseases, 112.

Long-term effects
Negative psychological effects on the incestuous daughter of sexual relations with her father, 27.

Lung-surgery
Notes on the use of thoracoscopy in the study of postpneumonectomy bronchopleural fistulae, 137.

Lymphatic surgery
Results with lymphaticovenous anastomosis in the treatment of lymphoedema, 244.

Lymphoblastic leukemia
Testicular infiltration in the acute lymphoblastic leukemia of childhood, 45.

Lymphoedema
Results with lymphaticovenous anastomosis in the treatment of lymphoedema, 244.

Lymphoscintigraphy
Dynamic lymphoscintigraphy with ^{99m}Tc (Re) sulfur colloid in pediatrics, 139.

M

Macromastia
A method for the correction of macromastia by means of total removal and reintegration with upper pedicle skin flaps, 46.

Macrophage
Platelet-activating factor (PAF) release from rat peritoneal cells, evidence for mastocyte-microphage cooperation, 117.

Mastocyte
Platelet-activating factor (PAF) release from rat peritoneal cells evidence for mastocyte-macrophage cooperation, 117.

Matched groups
Negative psychological effects on the incestuous daughter of sexual relations with her father, 27.

Medroxyprogesterone acetate

Anabolizing and anti-pain effect of the short-term treatment with medroxyprogesterone acetate (MAP) at high oral doses in oncology, 149.

Melanoma

Bleomycin Co_{57} in the diagnosis of melanoma and their metastases in the cephalic area, 112.

Mesangial glomerulonephritis

IgA mesangial deposits glomerulonephritis with unfavourable outcome in adult patients, 43.

Immunochemical studies on renal and muscle biopsy specimes on the mesangial glomerulonephritis, 44.

Mescal beans

Chemical, toxicological and ethnoanthropological notes on the ritual use of mescal beans among the American Indians, 114.

Mesentery cystic fibrolymphangioma

Unusual causes of acute abdomen in infancy: cystic fibrolymphangioma of the mesentery, 47.

Methodoiogy

Arteritis, 77.

Atherosclerosis and thrombophilia, 85.

Clinical judgement as the rational foundation of the evaluation of therapeutic response, 54.

Hodgkin's disease and non-Hodgkin's lymphomas. General considerations, biology, natural history, diagnostic and therapeutic approach to the disease, 95.

Mixed connective tissue disease, 73.

Monitoring and drug surveillance, 58.

Neuroactive drugs in endocrine diseases. Notes on their physiopathological and therapeutical aspects, 61.

Personal experience, experimental design and epidemiological studies in clinical evaluation, 54.

The clinical investigator and the controlled clinical trial: problems and difficulties, 59.

The non-specific components of the therapeutic response: the placebo effect, 56.

The observer as cause of variability and error, 55.

The patient record form, an instrument for the utilization of data, 57.

The phases of clinical drug research, 57.

Microphthalmos

Diamond-Blackfan syndrome with microphthalmos, 25.

Microprolactinoma

Partial or complete regression of hyperprolactinemic amenorrhea-galactorrhea syndrome after bromocriptine-induced pregnancy, 125.

Mixed adenoepidermoid carcinoma

Mixed adenoepidermoid carcinoma of the endometrium discovered by cytology, 173.

Myocardial infarction

Lipoprotein lipases of myocardium and infarction, 105.

Remarks on the early diagnosis of cardiac rupture during acute myocardial infarction, 40.

Ventricular fibrillation in the late hospital phase of acute myocardial infarction. Predicability of the event and long-term survival of resuscitated patients, 106.

N

Negative cognitive set

Negative psychological effects on the incestuous daughter of sexual relations with her father, 27.

Neonatology

Oxygen affinity of blood in the newborn, 244.

Notes on lipid metabolism in the newborn at birth: obstetric and paediatric aspects, 183.

Nephrology

Cell-mediated immunity and dialysis: possible therapeutic applications of bovine thymic factor, 184.

Diabetic nephropathy: a review of the present position and a practical account of its aetiopathogenesis and clinical and therapeutic aspects, 244.

Echocardiographic detection of cardiac effects of arteriovenous dialysis fistula (AVF), 43.

IgA mesangial deposits glomerulonephritis with unfavourable outcome in adult patients, 43.

Immunochemical studies on renal and muscle biopsy specimes on the mesengial glomerulonephritis, 44.

Incomplete distal renal tubular acidosis in liver cirrhosis: pathogenetic relationships with changes in renal and intrarenal haemodynamics, 183.

Primary structure of peptides with molecular weight between 500 and 1500 Daltons isolated from uremic and normal sera, 183.

Reninaemia and its clinical value, 184.

Role of nephrogenous cyclic guanosine monophosphate (NcGMP) as a mediator of PTH activity on renal tubules. Study of normal and nephropathic subjects with different decrease of glomerular filtrate (GF), 183.

Serum folate in chronic uremic patients undergoing dialysis, 244.

Neurophysiopathology

A further contribution to the study of morpho-neurophysiopathological relations between the muscle of the face, in particular of the mouth, and other apparatus and systems, 157.

Neurosurgery

Treatment of neuralgia of the trigeminus nerve by means of controlled differential selective thermorhizotomy, 245.

O

Obese chemical diabetes

A sequential test to assay A-B cellular function in controls and diabetic patients, 131.

Obstetric pathology

Ante-partum cardiotocography and urinary oestriol in the evaluation of foetal status, 44.

Obstetrics and gynaecology

Intensive postoperative treatment in obstetrics

and gynaecology: proposal of a scorse system for medico-surgical assessment of the abdominal patient, 112.
Side effects of PGFα by the extra-amniotic route in the induction of labour in retained abortion and in the intrauterine death of the foetus, 245.

Obstructive lung disease

Functional evaluation of the lung perfusion scanning in chronic obstructive lung disease and pneumoconiosis, 247.

Odontostomatology

Basic classification of 150 disgnatic individuals according to Steiner, Ricketts and Cervera. Concordant and discordant evaluation in single patients, 44.
Cryo-polychemo-radiotherapy in the years experience, 245.

Oncology

Anabolizing and anti-pain effect of the short-term treatment with medroxyprogesterone acetate (MAP) at high oral doses in oncology, 149.
Bleomycin Co_{57} in the diagnosis of melanoma and their metastases in the cephalic area, 112.
Contribution to the study of cell-mediated immunity in basal and squamous celle carcinoma, 246.
Cytostatic therapy of metastatic breast carcinoma, 185.
Notes on increased serum leucine-amino-peptidase (LAP) in patients with primary malignant bronchiogenic neoplasia, 112.
Preliminary results with an integrated multidisciplinary treatment in primary cerebral neoplasia, 184.
Urinary hydroxyproline in advanced breast cancer and response to treatment with medroxyprogesterone acetate at high doses, 185.

Orthopaedics

Does the mechanical axis of the lower limb cross the knee center? 44.
Paget's disease of bone, 113.
Permanent non-traumatic luxation of the patella. Clinical study and therapeutic approach, 45.

P

Pacemakers

Vectorcardiograms in subjects with artificial pacemakers, 241.

Paediatric cardiology

Rheumatic heart disease in children. Epidemiological aspects vs diagnosis of congenital bicuspid aortic valve and prolapse of the mitral valve, 246.

Paediatrics

Computerised cerebral tomography in children with epileptic crises, 185.
Current pathogenetic and therapeutic aspects of Kasabach-Merrit syndrome, 246.
Dynamic lymphoscintigraphy with ^{99m}Tc (Re) sulfur colloid in pediatrics, 139.
Head injuries in the neonatal period and early childhood, 185.
Treatment of thrombocytopenic and vascular purpura in infancy, 45.
Unusual causes of acute abdomen in infancy: cystic fibrolymphangioma of the mesentery, 47.

Paediatrics haematology

Study of platelet sequestration with ^{99m}Tc-labelled platelets in a patient with Kasabach-Merrit syndrome, 45.
Testicular infiltration in the acute lymphoblastic leukemia of childhood, 45.

Paget's disease

Paget's disease of bone, 113.

Pain

Anabolizing and anti-pain effect of the short-term treatment with medroxyprogesterone acetate (MAP) at high oral doses in oncology, 149.

Pain therapy

Intrathecal phenol in the management of intractable perineal cancer pain, 246.

Pancreas

Notes on pancreatic cysts in the light of three personal cases, 17.

Parenteral therapy

A retrospective study of 105 cases of supra- and subclavicular catheterisation of the subclavian vein, 247.

Patella luxation

Permanent non-traumatic luxation of the patella. Clinical study and therapeutic approach, 45.

Peritoneal dialysis

Comparison of semiautomatized peritoneal dialysis (S.A.P.D.) with an automatic close-circuit system (A.P.D.), 46.

Pharmacology

Clinical evaluation of labetalol in essential hypertension. Effects of chronic treatment in rest and stress conditions, 247.
Clinical notes on the rheological and haemodynamic action of some drugs that act on the microcirculation, 113.
Psychoneurosis and drug abuse, 113.

Phlebography

Infrared phlebography in stasis dermatitis of the lower limbs, 242.

Phleboscintigraphy

Notes on the use of phleboscintigraphy with MAA-Tc^{99m} in the diagnosis of thrombosis of the lower extremities, 40.

Plastic surgery

A method for the correction of macromastia by means of total removal and reintegration with upper pedicle skin flaps, 46.

Platelet-activating factor (PAF)
Platelet-activating factor (PAF) release from rat peritoneal cells, evidence for mastocyte-macrophage cooperation, 117.
The binding of platelet-activating factor (PAF) to polymorphonuclear neutrophils (PMN) as a trigger for the immune-induced PMN aggregation, 1.

Pneumoconiosis
Functional evaluation of the lung perfusion scanning in chronic obstructive lung disease and pneumoconiosis, 247.

Pneumology
Functional evaluation of the lung perfusion scanning in chronic obstructive lung disease and pneumoconiosis, 247.
Prenatal prophylaxis of the respiratory distress syndrome. Note II: personal experience with betamethasone, 46.
The prenatal prevention of the respiratory distress syndrome, 46.

Polyarthritis
The immune response in serum-negative polyarthritis, 111.

Polymorphonuclear neutrophils (PMN)
The binding of platelet-activating factor (PAF) to polymorphonuclear neutrophils (PMN) as a trigger for the immune-induce PMN aggregation, 1.

Porto-caval anastomosis
Testicular atrophy and gonadotropic activity in rats with porto-caval anastomosis, 243.

Post-phlebitic syndrome
Medical and surgical therapy of post-phlebitic syndrome, 240.

Pregnancy
Partial or complete regression of hyperprolactinemic amenorrhea-galactorrhea syndrome after bromocriptine-induced pregnancy, 125.

Prenatal diagnosis
Prenatal diagnosis of foetal sex with the real time ultrasonography, 248.

Prolactin
Partial or complete regression of hyperprolactinemic amenorrhea-galactorrhea syndrome after bromocriptine-induce pregnancy, 125.

Prolactin secretion
Effect of domperidone on prolactin secretion in healthy subject, 13.

Prostaglandins
Side effects of PGFα by the extra-amniotic route in the induction of labour in retained abortion and in the intrauterine death of the foetus, 245.

Psychiatry
Depression. A nosographic study, 186.
The amenorrhea-galactorrhea syndrome by sulpiride. Clinic contribution, 186.

Psychoneurosis
Psychoneurosis and drug abuse, 113.

Pulmonary arterial hypertension
Radiological evaluation of pulmonary arterial hypertension in congenital arterial hypertension in congenital and acquired cardiopathy, 41.

R

Radiodiagnosis
Percutaneous transhepatic cholangiography with Chiba needle in the diagnosis of cholestasis, 186.

Radiology
Use of high dilution barium in the radiological study of stomach and duodenum, 113.

Radiotherapy
Post-radiotherapeutic lung disease in the treatment of breast cancer by means of fast electrons from an 18 MeV betatron, 187.

Renal tumours
Echography in renal tumours, 108.

Respiratory distress syndrome
Prenatal prophylaxis of the respiratory distress syndrome. Note II: personal experience with betamethasone, 46.
The prenatal prevention of the respiratory distress syndrome, 46.

Respiratory viral infections
SIgA dosage in nasal secretions as a possible susceptibility index to upper respiratory tract viral infections, 110.

Retained abortion
Side effects of PGFα by the extra-amniotic route in the induction of labour in retained abortion and in the intrauterine death of the foetus, 245.

Rheumatic heart disease
Rheumatic heart disease in children. Epidemiological aspects vs diagnosis of congenital bicuspid aortic valve and prolapse of the mitral valve, 246.

Rhinophyma
A new therapeutic aid for rhinophyma: fast electrons, 41.

Rociverine
Antispasmodic activity of rociverine. Manometric findings and controlled clinical trial, 7.

Rud's syndrome
Rud's syndrome (ichthyosis, oligophrenia, epilepsy) with character dissociation in five brothers, 108.

Rupture of the oesophagus
Boerhaave's syndrome, 21.

S

Serum folate
Serum folate in chronic uremic patients undergoing dialysis, 244.

Social medicine
Chemical, toxicological and ethnoanthropological notes on the ritual use of mescal beans among the American Indians, 144.
Therapeutic problem of drug addiction in Italy, 47.

Spasmolytic drugs
Antispasmodic activity of rociverine. Manometric findings and controlled clinical trial, 7.

Spontaneous chemical diabetes
A sequential test to assay A-B cellular function in controls and diabetic patients, 131.

Stasis dermatitis
Infrared phlenography in stasis dermatitis of the lower limbs, 242.

Surgery
A case of external compression of the coeliac trunk by the lateral arcuate ligament, 248.
Unusual causes of acute abdomen in infancy: cystic fibrolymphoangioma of the mesentery, 47.

Systemic arterial hypertension
Left ventricular function in systemic arterial hypertension: echocardiographic findings, 242.

T

Testicular atrophy
Testicular atrophy and gonadotropic activity in rats with porto-caval anastomosis, 243.

Thoracoscopy
Notes on the use of thoracoscopy in the study of postpneumonectomy bronchopleural fistulae, 137.

Thrombocytopenia
Treatment of thrombocytopenia and vascular purpura in infancy, 45.

Thromboembolectomy
Indications for and results of thrombo-embolectomy in acute ischemia of the extremities, 114.

Thromboblastic diseases
Choriocarcinoma. A late complication of pregnancy, 31.

Thrombosis
Notes on the use of phleboscintigraphy with MAA-Tc^{99m} in the diagnosis of thrombosis of the lower extremities, 40.

Thymic cyst
Hemorrhagic diathesis caused by factor X deficiency in a child with thymic cyst, 167.

Thyroid pathology
Scintiscanning and echography disease of the thyroid, 243.

Traumatology
Anesthesia problems presented by subject with multiple injuries, 40.

Trigeminal neuralgia
Treatment of neuralgia of the trigeminus nerve by means of controlled differential selective thermorhizotomy, 245.

Tumour
Anabolizing and anti-pain effect of the short-term treatment with medroxyprogesterone acetate (MAP) at high oral doses in oncology, 149.

U

Ultrasonography
Prenatal diagnosis of foetal sex with the real time ultrasonography, 248.

Urinary oestriol
Ante-partum cardiotocography and urinary oestriol in the evaluation of foetal status, 44.

Urology
Recent advances in the etiopathogenesis, diagnosis and treatment of hyperparathyroidism of interest to the urologist, 187.

V

Vascular purpura
Treatment of thrombocytopenic and vascular purpura in infancy, 45.

Vascular surgery
Axillo-axillary by-pass, 114.
Indications for and results of thrombo-embolectomy in acute ischaemia of the extremities, 114.
The use of laminar flows in vascular surgery, 248.
Use of the human umbelical vein as a vascular prosthesis. Experimental study, 114.

Vectocardiography
Vectorcardiograms in subjects with artificial pacemakers, 241.

Ventricular fibrillation
Ventricular fibrillation in the late hospital phase of acute myocardial infarction. Predicability of the event and long-term survival of resuscitated patients, 106.

Ventricular function
Left ventricular function in systemic arterial hypertension: echocardiographic findings, 242.

Vitiligo
Vitiligo and autoimmunity, 107.
